## Vacuum Ironing / Blowing Systems

### Ramsons-VEIT Concave Lining Station

- The concave ironing surface keeps the curves, which were generated by the shaping press, in shape
- Moreover, this buck allows for optimum positioning of the arm hole area
- For shoulder ironing purposes, we recommend using the shoulder seam attachment and an appropriately shaped buck

### Ramsons-VEIT Up-Steam Table RUS 036

- Even distribution of steam and suction
- Inclined from 0-15 degrees
- All parts contacted by steam are made of stainless steel/non-ferrous metals to ensure the least corrosion, thus resulting in a long life. This also prevents staining of garments
- Programmable control (for independent programmable timing of the steam release/use) in addition to a heat-proof fabric on the frame ensures a quality finish of garments (that can specially be fitted)

Model	Electric Connection (hp)	Steam Connection (bsp)	Steam Quantity (kg/hr)	Dimensions (L x B x H) (mm)	Air Connection (bar)	Weight (kg)
RUS 036	0.75	½"	15/30	1150x2000x950	5-6	350

### Ramsons-VEIT Collar & Cuff Press RCC-8140

- High level of operational safety assured by the two hand operation
- Safety bar and emergency shutdown, programmable control timers, temperature control to suit individual fabric requirements and foot remote-controlled vacuum ensures holding of collars cuffs on the mould, while the body of the garment rests on a convenient spill tray to provide for easy handling higher productivities

Model	Steam Consumption (kg/hr)	Electric Connection (kw)	Air Pressure (bar)	Dimensions (L x B x H) (mm)	Weight (kgs)
RCC 8140	20	4.0	5-6	1050 x 1050 x 1500	350

### Ramsons-VEIT All-purpose Finish Table

- An all purpose ironing station offering a wide range of bucks
- On its specially designed ironing surfaces, trousers, dresses, skirts, coats, blouses, jackets and other garments can be processed rapidly
- Fitted with an additional spotting unit and various suspension systems, this station is the right choice, particularly for textile care companies

### Good ergonomics in 6 positions

Tables come with 6 adjustable heights (72-95 cms) which always offer a comfortable working position for the operator. The height can be quickly and easily changed.

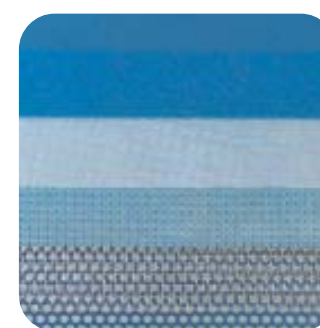

### Superior, Consistent Suction

The careful design of these ironing tables guarantee superior and even suction- power on the whole ironing table. Thus, all parts of the ironing surface are suitable for ironing.

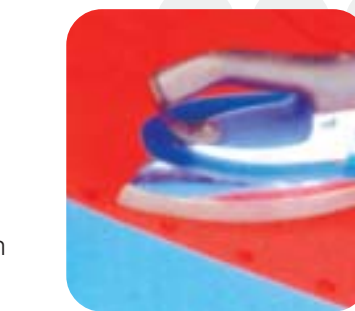

### Excellent components that ensure Trouble-Free operation.

The Ramsons name is renowned for its high-quality products. From the high-power motor and the German-made electronics to the high-quality and hard-wearing cover materials, all components meet the most demanding standards for a long life and easy maintenance.

### Suction Covers

The air flow, which goes through a garment while it is being ironed, is of decisive importance. This is where the variojet excels with a Ramsons made perforated plate, together with the Ramsons supplied covers and a specially adapted blowing unit. Suction and blowing can be adjusted independently from each other.

### Stabilizing cold-iron Technology

Due to the superior suction of the ironing table, the ironing surface is always dry. By thoroughly cooling the garment, the applied shape is quickly, reliably and permanently fixed.

### Selective Suction

The kicker plate covers the whole width of the table and allows the suction to be used selectively. This gives much better ironing- results than the permanent suction. Sensitive fabrics can be finished

### Energy-saving Technology

Due to the superior suction of the Ramsons-VEIT ironing tables, the ironing surface is always dry. This normally enables the use of ironing bucks without heating. You save energy and your operating expenses are noticeably lower.

### without leaving marks or shine.

## Vacuum Ironing / Blowing Systems

### Ramsons-VEIT RV 4255

- The VEIT 4255 with a 110 x 32 cm surface is specially suitable for ironing ladies wear such as dresses, skirts and blouses
- Integrated wheels allow the table to be moved quickly and easily to another spot
- The table is equipped with a spill tray for holding garments

Model	Usable Working width (mm)	Motor Capacity (kw)	Weight (kgs)
RV 4255	130 x 80	0.55	75

### Ramsons-VEIT RV 4435 (with chimney)

- The VEIT 4435 with a 130 x 80 cm surface is designed for the garment industry, studios and alteration shops
- This flat-top ironing table is suitable for under-pressing lining seams, for ironing small parts such as collars, cuffs and pockets, and also to apply pads

Model	Usable Working width (mm)	Motor Capacity (kw)	Weight (kgs)
RV 4255 (air vent)	130 x 80	0.55	75

### Ramsons-VEIT RV 4425-65

- Designed for garment industry, studios and alteration shops
- Flat top ironing table with optional swivel arm with buck for ironing of smaller parts

Model	Table Size (mm)	Suction Motor (kw)	Power Consumption (kw)	Dimensions (L x B x H) (mm)	Net Weight (kgs)
RV 4425-65	1300 x 650	0.5	1.0	1500 x 660 x 850	100

### Ramsons-VEIT Dress Board

- Suitable for ironing ladies wear such as dresses, skirts and blouses
- Integrated wheels allow the table to be moved quickly and easily to another spot
- Equipped with a spill-tray frame for handling garments

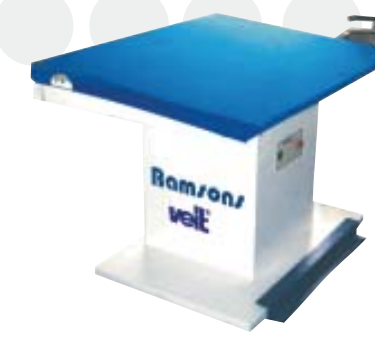

### Ramsons-VEIT E Line Series

- Measures 130 x 80 cms
- Single phase, so no new three-phase line required
- On wheels and fitted with boiler to ensure flexibility
- Mechanical and electrical components are easily removable, and can be replaced within minutes
- Economic spares are readily available

## Vacuum Ironing / Blowing Systems

### Ramsons Prima Table 3 x 4

- The vacuum board measures 3 ft x 4 ft and is slightly tapered
- Excellent uniform suction throughout surface
- 0.5 HP motor with very low power consumption compared to that of conventional tables
- Motor consists of an inbuilt imported thermo-switch for long and durable life
- Easy to operate and very low maintenance required
- Very little noise emitted
- Ergonomically designed inclined top-surface

### RON 005 (with fully-automatic boiler)

- Single phase, so no new three-phase line required
- On wheels and fitted with boiler to ensure flexibility
- Mechanical and electrical components are easily removable, and can be replaced within minutes
- Economic spares are readily available

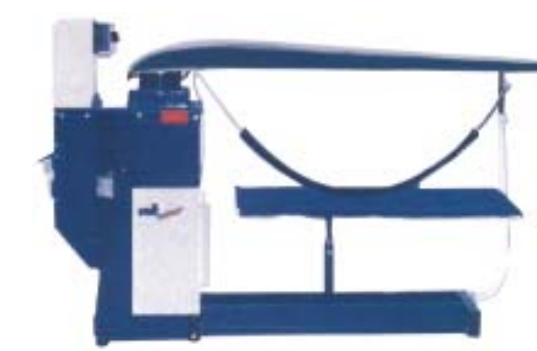

Model	Power Consumption (kw)	Dimensions (L x B x H) (mm)	Net Weight (kgs)
RON 005	5.0	1050 x 650 x 800	90

### RON 008 (on 'Z' frame with portable boiler)

- Single phase, so no new three phase line required
- On wheels and fitted with boiler to ensure flexibility
- Mechanical and electrical components are easily removable and can be replaced within minutes
- Economic spares are readily available

Model	Power Consumption (kw)	Dimensions (L x B x H) (mm)	Net Weight (kgs)
RON 008	3.0	1050 x 650 x 800	70

### Ramsons-VEIT Trousers Seam Ironing Station

- The trousers seam ironing buck is complete with a pneumatic tensioning system, which keeps the trousers fixed and operators hands free
- The crotch and side seams of single legs as well as complete trousers can be opened in a short amount of time
- Thanks to an additional hook attachment, trouser legs will be turned automatically while being pulled off the buck

### Ramsons-VEIT Curtain Ironing Table

- The ironing table is available with or without steam line with condensate return
- The iron can be suspended at the iron gantry, which avoids burning the garment or the cover
- The operator can easily handle the iron, allowing for a quick finish and the best ironing results

Model	Usable Working Width (cm)	Working Height (cm)	Surface Inclination (degrees)
7617	310 x 95 x 225	89	8

### Ramsons-VEIT Trousers Seam Ironing Station

- After the processing on an ironing press, this station with its all-purpose buck removes imperfections in seam and/or waistband areas
- A waistband clamp is standard and keeps trousers in place while the blowing function is being used

### VEIT Varioset Hip-Bow

- This table has been especially designed for finishing the Hip-Bow
- The table provides suction and blowing, and comes with a support stand, double kickplate, spilltray, ironing buck hip-bow which when combined results in a hip-bow without marks
